

iON End User License Agreement

Effective date: May 22, 2026

This End User License Agreement ("Agreement") governs access to and use of the iON software family, including iON, HELiOS, Nemesis, STYGiON/Stygion, and any related modules, agents, tools, scripts, interfaces, documentation, datasets, examples, or packaged distributions that refer to this Agreement.

The software is source-available for view-only educational review. It is not open source. This product is free for the first 30 days

1. Acceptance

By downloading, installing, accessing, viewing, running, or otherwise using the software, you agree to this Agreement and the accompanying LICENSE.txt. If you do not agree, do not download, install, access, view, run, or use the software.

Installers, package managers, setup scripts, graphical interfaces, and command line first-run flows should present these terms and require an affirmative "Accept" action before the software is used.

2. Authorized Use

The copyright owner grants you a personal, non-exclusive, non-transferable, revocable, limited license to read and run the software only for:

- personal amusement;
- private study;
- evaluation;
- educational review.

Source code access is provided only so that you may inspect and understand the software.

3. Restrictions

You may not, without prior written permission from the copyright owner:

- copy, publish, share, sublicense, sell, rent, lease, host, mirror, upload, or redistribute the software or any substantial portion of it;
- modify, adapt, translate, fork, merge, compile into a derivative work, or create any derivative work from the software;
- distribute patches, forks, ports, compiled binaries, package builds, container images, hosted versions, or modified or unmodified copies;
- use the software for commercial, paid, business, government, institutional, or production purposes;
- use the software to provide services to any third party;
- remove, alter, or obscure copyright, license, attribution, or provenance notices;
- reverse engineer, decompile, or disassemble any binary component except to the limited extent that applicable law prohibits this restriction;
- use the software to violate law, infringe rights, bypass access controls, or compromise systems, devices, accounts, or data without authorization.

4. Ownership

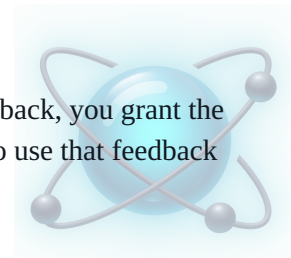

The software is licensed, not sold. The copyright owner retains all rights, title, and interest in the software. No rights are granted except those stated in this Agreement and `LICENSE.txt`.

5. Third-Party Software

The software may include or depend on third-party components. Third-party components are governed by their own licenses. This Agreement does not reduce rights you may have under those separate third-party licenses.

6. Feedback

If you provide suggestions, ideas, bug reports, improvements, or other feedback, you grant the copyright owner a perpetual, worldwide, irrevocable, royalty-free license to use that feedback without restriction or compensation.

7. Updates and Access

The copyright owner may update, change, suspend, or discontinue the software or access to the software at any time. Continued use after an update means you accept the updated terms.

8. Termination

This Agreement terminates automatically if you violate any term. Upon termination, you must stop using the software and delete all copies in your possession or control.

9. No Warranty

The software is provided "as is" and "as available", without warranties or conditions of any kind, whether express, implied, statutory, or otherwise, including warranties of merchantability, fitness for a particular purpose, title, non-infringement, accuracy, security, availability, or error-free operation.

10. Limitation of Liability

To the maximum extent permitted by law, the copyright owner and contributors will not be liable for any direct, indirect, incidental, special, exemplary, consequential, punitive, or other damages arising from or related to the software or this Agreement, including loss of profits, data, goodwill, business, or system availability, even if advised of the possibility of such damages.

11. Permission Requests

Commercial use, redistribution, modification, private licensing, or any use outside this Agreement requires a separate written agreement signed by the copyright owner.
