

iON Source-Available View-Only License v1.0

Copyright (c) 2026 iON Software owner. All rights reserved.

This license applies to the iON software family, including iON, HELiOS, Nemesis, STYGiON/Stygion, and any related modules, agents, tools, scripts, interfaces, documentation, datasets, examples, or packaged distributions that refer to this license.

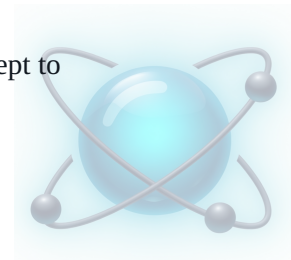

1. Limited Permission

You may read and run the covered software only for personal amusement, private study, evaluation, and educational review. Source code access is provided so that you may understand how the software works. No ownership or copyright interest is transferred to you.

2. Prohibited Uses

You may not, without prior written permission from the copyright owner:

- copy, publish, share, sublicense, sell, rent, lease, host, mirror, upload, or redistribute the software or any substantial portion of it;
- modify, adapt, translate, fork, merge, compile into a derivative work, or create any derivative work from the software;
- remove, alter, or obscure copyright, license, attribution, or provenance notices;
- use the software for commercial, paid, business, government, institutional, or production purposes;
- use the software to provide services to any third party;
- reverse engineer, decompile, or disassemble any binary component except to the limited extent that applicable law prohibits this restriction;
- use the software in a way that violates law, infringes rights, bypasses

access controls, or compromises systems, devices, accounts, or data without authorization.

3. No Redistribution of Modified or Unmodified Copies

The permission granted by this license is personal, non-exclusive, non-transferable, revocable, and limited to the uses stated above. You may not distribute original copies, modified copies, patches, forks, ports, compiled binaries, container images, package builds, or hosted versions of the software.

4. Installation and Acceptance

By downloading, installing, accessing, viewing, running, or otherwise using the software, you accept this license and the accompanying EULA. If you do not accept these terms, do not download, install, access, view, run, or use the software.

5. Reservation of Rights

All rights not expressly granted are reserved. This software is source available, not open source. No permission is granted under any open source license unless a separate written license file for a specific component says otherwise.

6. Third-Party Components

Third-party dependencies remain governed by their own licenses. This license does not limit rights you may have under those separate third-party licenses.

7. No Warranty

The software is provided "as is" and "as available", without warranties or conditions of any kind, whether express, implied, statutory, or otherwise, including warranties of merchantability, fitness for a particular purpose, title, non-infringement, accuracy, security, availability, or error-free operation.

8. Limitation of Liability

To the maximum extent permitted by law, the copyright owner and contributors will not be liable for any direct, indirect, incidental, special, exemplary, consequential, punitive, or other damages arising from or related to the software or this license, including loss of profits, data, goodwill, business, or system availability, even if advised of the possibility of such damages.

9. Termination

Your permission under this license terminates automatically if you violate any term. Upon termination, you must stop using the software and delete all copies in your possession or control.

10. Written Permission

Requests for commercial use, redistribution, modification, private licensing, or any use outside this license must be approved in a separate written agreement signed by the copyright owner.
